

Bleeding Heart 'Ruby Gold' ☀️

Red flower, Golden foliage 36"x30" Semi-E

***Dicentra spectabilis* (Bleeding Heart) "Ruby Gold" - located in Chimney Bed Beautiful Yellow Foliage topped by Red "bleeding heart" flowers on strong Reddish Stems in Late Spring Upright Zones 4-8 Shade to Part Shade Semi-Evergreen Perennial Water regularly 36"x30" Deer Resistant**

Dicentra spectabilis (Bleeding Heart) "Ruby Gold" has beautiful yellow foliage topped by numerous large true red "bleeding heart" flowers on reddish stems in late Spring. Long-blooming.

It thrives in a shady site with reliable moisture and well-drained soil, but tends to go dormant in hot summers. Foliage will sometimes reemerge as the weather cools down. Vigorous upright growth. Deer resistant.
