

Delphinium elatum 'Delgenius Breezin' - located in Delphinium Bed Long-Blooming Double Lilac Flowers Zones 3-8 Full sun, part shade Herbaceous Perennial Water regularly Prefers ALKALINE Soil Fertilize regularly 2'x2' Stake

Well-branched strong sturdy stems shoot up from a frilly mound of green foliage. Tall spires of double purple flowers bloom in early summer and continue until fall. Large flowers attract butterflies and hummingbirds. Deer resistant.

From plant breeder Bart Noordhuis, who produces Bee Delphiniums with excellent disease resistance, increased hardiness, and multiple branching stems - great for cutting gardens.
