Fuchsia "David" is a repeat-blooming upright shrub that bears multitudes of small single flowers with red sepals above a vivid purple corolla.

In early to mid-spring, cut back the previous year's flowering stems to within a bud or two of the older woody framework. Remove any thin, weak, or dead growth to stimulate strong new growth on which flowers will be produced in late summer.

Parentage - Pumila x Venus Victrix

Add to salads, crystallize them for a sweet garnish or add them to jellies for an extra splash of color.
